

UNAI SAH

Aspiring Coding Mentor | Software Engineering Student
Bogor, West Java | unaiiunais207@gmail.com | 0878-3706-4731

SUMMARY

Third-semester Software Engineering Technology student at IDN Polytechnic Bogor with a strong interest in technology education and programming. Experienced in teaching and mentoring students through coding classes, IT camps, and educational outreach programs. Skilled in delivering beginner-friendly programming lessons using Scratch and PictoBlox, while also possessing foundational knowledge of web and mobile application development using HTML, CSS, PHP, Laravel, and Flutter.

EDUCATION

Politeknik IDN Bogor | Applied Software Engineering Technology **Juli 2025– Now**

PKBM Cahaya Sunnah | IPA **Juli 2023– 2025**

ORGANIZATION & TEACHING EXPERIENCE

Coding Tutor (Online) | PictoBlox for Elementary and Junior High School Students | 2026

- Conducted introductory coding classes using PictoBlox for elementary and junior high school students.
- Taught programming logic, simple animations, and block-based programming concepts through interactive learning activities.
- Guided students in understanding coding fundamentals through hands-on practice and project-based learning.

Mentor | IT Camp, IDN An-Naba Bilingual School | 2026

- Served as a mentor in an IT Camp program and taught basic coding concepts using PictoBlox.
- Assisted students in understanding programming logic and completing simple coding projects.
- Collaborated with fellow mentors to support technology learning activities and student engagement.

Trainer | Politeknik IDN Mengajar | 2026

- Participated in educational outreach programs for partner schools.
- Assisted students in understanding technology-related topics and digital learning concepts.
- Supported learning activities and encouraged student participation during training sessions.

Tahsin Teacher | Masjid Jami Al Barkah, Cileungsi | 2024–2025

- Taught Tahsin and basic Tajweed to children and teenagers.
- Guided students in improving their Quran recitation accuracy and fluency.
- Assisted students in developing a better understanding of Tajweed rules.

President | ISMICS, PKBM Cahaya Sunnah | 2023–2024

- Led the planning and execution of various student activities and programs.
 - Coordinated communication and collaboration among organization members to ensure effective program implementation.
 - Organized internal school events and collaborated with other institutions on joint activities.
 - Developed leadership, teamwork, problem-solving, and organizational management skills through student-led initiatives.
-

PROJECT EXPERIENCE

Educational Game Project | Scratch / PictoBlox

- Developed interactive educational games using block-based programming.
- Applied programming concepts such as variables, loops, and conditionals.
- Designed game mechanics suitable for beginner learners.

Web Toko Kasur Busa Cileungsi | HTML, CSS

- Developed a responsive business website for product promotion and information display.
- Created user-friendly layouts and mobile-responsive pages.

Task Management Web App | Laravel, Blade

- Built a task management application with add, edit, and delete features, including routing and database workflows using Laravel.

MindMate To-Do List Application | Flutter, Laravel, MySQL

- Developed a task management mobile application using Flutter and Laravel.
 - Implemented task creation, editing, deletion, and completion features.
 - Integrated Flutter frontend with Laravel REST API for data management.
 - Designed responsive user interfaces and managed database operations using MySQL
-

TRAINING & CERTIFICATIONS

School Managing Curriculum Training | IDN Education *February 2026*

- Learned the fundamentals of AI with PictoBlox, Scratch, IoT Robotics, Roblox Creator, Thunkable, Minecraft Education, and technology curriculum development.
- Developed projects using block-based coding, robotics, augmented reality, and 3D design with Tinkercad.
- Explored teaching methodologies and curriculum planning for technology education.

IDCamp | Dicoding *October 2025*

- Completed the "Belajar Dasar AI" (Introduction to Artificial Intelligence) training program.
- Learned fundamental AI concepts and their practical applications.

Web Development Bootcamp | Skilvul *October 2025*

- Learned the fundamentals of HTML and website structure.
- Practiced creating basic web pages using HTML.

Web Development Bootcamp | Skillpedia *October 2025*

- Studied HTML, CSS, and JavaScript for front-end web development.
 - Built simple web pages and implemented responsive design principles.
-

SKILL

Technical Skills

- Scratch
- PictoBlox
- Roblox Creator (Basic)
- HTML
- CSS
- PHP
- Laravel (Basic)
- Flutter (Basic)

Teaching Skills

- Classroom Management
- Public Speaking
- Student Mentoring
- Communication
- Curriculum Assistance
- Team Collaboration
